- [Success Stories; Creating Inclusive Depression Care for Older Asian Americans: What Community Organizations Can Do](#)
- Flyers, brochures, newsletters, community and partner presentations: templates and examples

Peer sharing opportunities or a Community of Practice for AAEBI trained leaders

- Community of practice: Free monthly technical assistance calls for trained PEARLS providers
- Phone and email support + peer networking with potential, new and current PEARLS organizations

How PEARLS can be paired with other evidence-based programs to address continuity of care

- PEARLS can be both first stop (e.g., connects with Walk with Ease or Tai Chi to support physical activity goals) or referral to other AAEBIs (e.g. EnhanceFitness participant who is struggling with depression)
- Problem-Solving approach supports sleep, pain, and health management; social connectedness and needs

Examples of organizations who have trained leaders in your AAEBI

- Senior centers, area agencies on aging, public health departments, low-income senior housing, cultural and faith-based organizations, YMCAs, community mental health agencies, home health agencies

How much does it cost to become a trained leader / what is the time commitment?

- \$500/person for distance training. 8 hrs: 6.5 self-paced + 1.5 live Zoom practice. \$600 for train-the-trainer training

Mode of delivery

- In-person, phone, video-conferencing, hybrid (in-person → remote or vice versa)

Engagement and Referral to your AAEBI

- Internal and external referrals via agencies that reach isolated older adults – e.g., Meals on Wheels driver, AAA case managers, senior housing residential services coordinator, hospital discharge planner

Engaging allied health care as leaders of your AAEBI

- Designed to train existing or new staff with varied backgrounds and education-e.g. community health workers, peer support specialists, recovery specialists, case managers. Link btw social services, health care, public health.

Partnering with community care hubs to deliver program

- AAAs delivering/funding local CBOs reaching underserved populations: AAA4 CA, AgeOptions IL, MAC MD, Juniper MN

Medicaid Waivers, cost sharing, business case, reimbursement, and sustainability funding options

- Reimbursement through Medicaid waiver (WA) or Medicare or Medicaid if covered provider and entity
- PEARLS outcomes (PHQ-9 response/remission) align with national quality assurance screening + treatment
- [Recent article \(blog post\)](#) found lower inpatient hospitalizations, nursing home stays, mortality
